

Welcome back to school, parents! Our names are Mrs. Keeler and Mrs. Hayes. We are thrilled to be our school's Box Tops for Education™ Coordinators.

Clipping Box Tops is an easy way to help earn cash for our school. Each one is worth 10¢ for our school! Just look for the pink Box Tops on hundreds of products. All you have to do is clip them and send them to school.

After you clip Box Tops, group them in sets of 50, and put each set into an envelope. You can also fill up Box Top sheets sent through our Weekly Word distributions. Keep any "Bonus Box Tops" separate. Give them to your teacher. Each teacher can participate in grade level contests. Who will collect the most Box Tops? Listen to the announcements to see if your class won!

Our next collection deadline is **Friday, OCTOBER 26th**!

In years past, we earned \$3,000 for our school from Box Tops and used the money for various supplies, treats, field trips and BOCES Programs to enrich our student learning. This school year, our goal is to earn \$5,000.

For more information on Box Tops, including a list of participating products, go to BTFE.com. Be sure to sign up as a member (it's free!) so you can check out our school's earnings details and get access to coupons and bonus offers. There's also an APP too!

If you have any questions, please don't hesitate to contact us. We're here to help make our school's Box Tops for Education™ program a huge success this year.

Thanks for your help!

After-School Science Enrichment Program

Mad Science activities are so fun that children forget they are learning! These recreational science programs are designed to help all kids learn to enjoy science. Mad Science after school enrichment topics are on a three-year rotation, so repeat students should not see a specific science class again for a long time.

Fall 2018: Super Science Sampler 5

During this science sampler, children will experiment with robots and robotics, learn about telecommunications, and discover alternate energy sources. Your Mad Scientist will feel the force of energy, the pull of gravity, and the might of motion in three exciting physics explorations. They will also explore the wonderful world of animals – above and below water. Fun take home projects include a robotic hand, a plaster cast of an animal track, a fiber optic map and a catapult.

Mad Science of the Mid-Hudson (845) 294-5434

Wednesdays at Putnam Valley Elementary school (*immediately after school*)

Time: 3:30 – 4:30 PM

Dates: October 3, 10, 17, 24, November 7, 14, 28, December 5

Grades: 1-5

Registration MUST be completed online @ midhudson.madscience.org

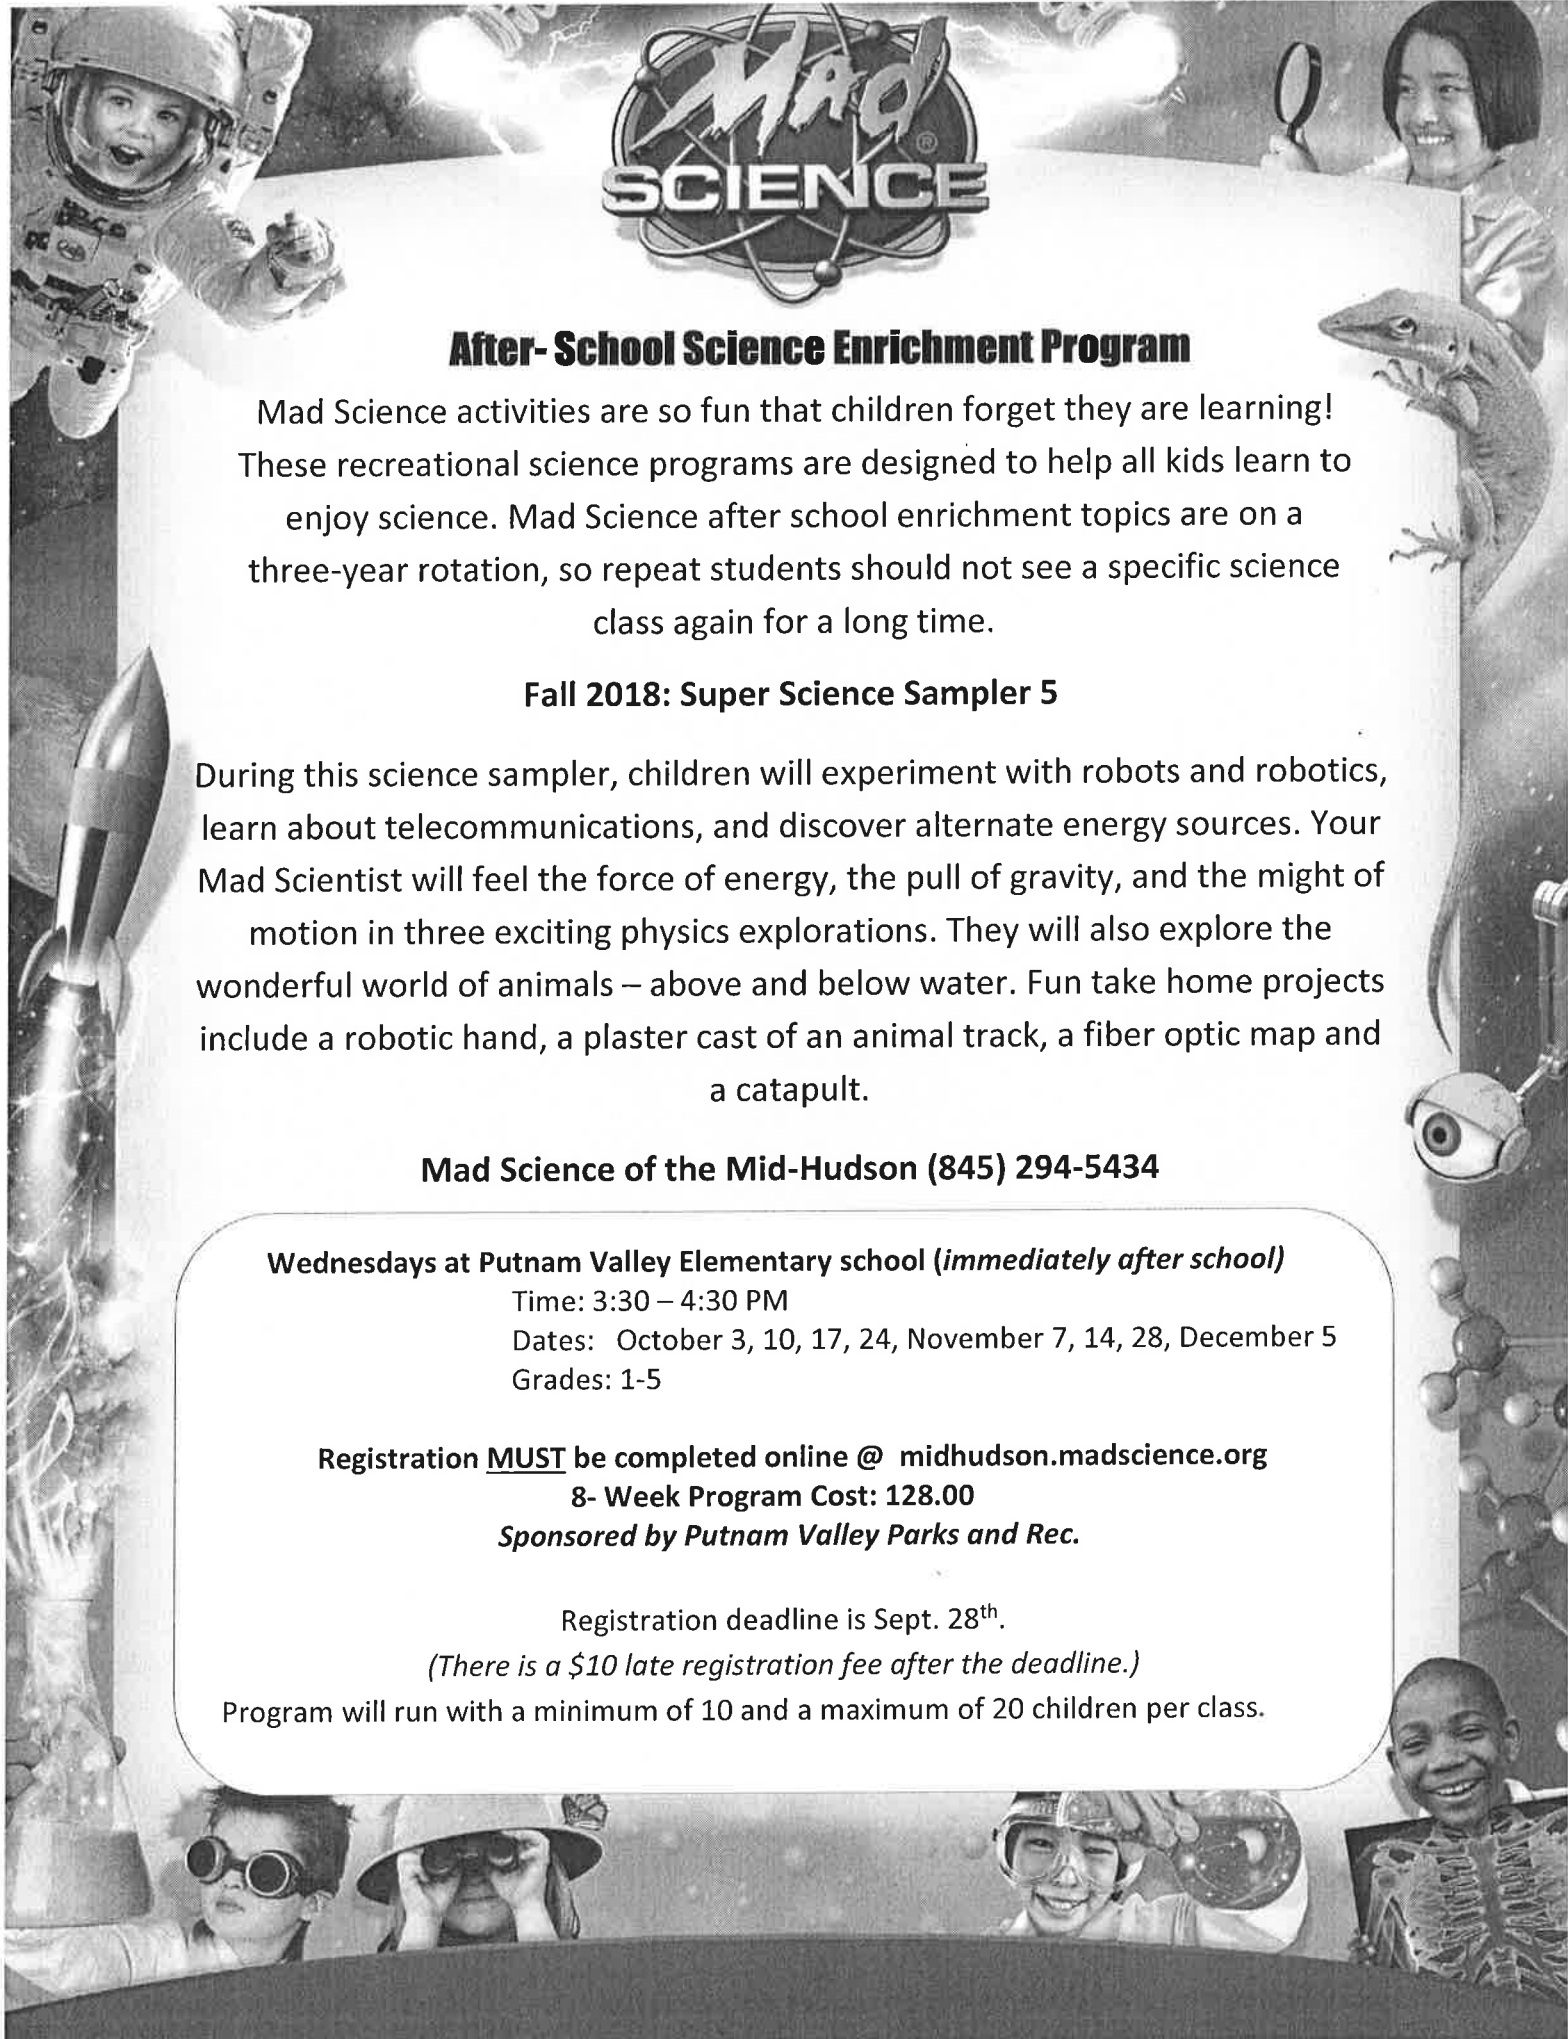

8- Week Program Cost: 128.00

Sponsored by Putnam Valley Parks and Rec.

Registration deadline is Sept. 28th.

(There is a \$10 late registration fee after the deadline.)

Program will run with a minimum of 10 and a maximum of 20 children per class.

PUTNAM VALLEY PARKS AND RECREATION

LEGO ENGINEERING ACADEMY

**Eight week program on Friday's
Sept. 28, Oct. 5, 12, 19, 26, Nov. 2, 9, 16**

3:30pm- 4:30pm

PVES

Grades 1-4

\$96.00

Instructor: Marlet Dath

Our focus is on building an interest in science and engineering. Lego Engineering Academy is a hands on program designed to stimulate your child's creativity. Critical thinking, collaboration, problem solving skills and descriptive language will also be developed as your child constructs models with Lego components.

Classes will be divided into 4 segments. Children will start exploring with a "free build" time before they learn a new technique or strategy. They will then be presented with a "partner challenge", where they will be asked to collaborate with their peers to solve a specific problem. The class will end by encouraging students to reflect on observations, investigations and problem solving strategies used throughout the class.

Chung Ma's Taekwondo will again be offering their fun and exciting Taekwondo Club for all Putnam Valley Elementary school students.

This year's program will consist of learning the basic blocks, kicks and punches of the martial art for all new students and broadening the knowledge of all rejoining members in a safe fun atmosphere. By learning these techniques we will not only be enhancing the student's physical abilities but also their confidence, self-control, focusing skills, self-defense and the "Yes I can attitude". Board breaking and special games will also be a part of the program to help teach the martial art and stimulate the children's physical and mental abilities.

The instructor for the class will be Master Wayne DeRosa, who is a 7th degree black belt and also National and International Champion
