

Syracuse University Project Advance

The High School offers a small number of courses taught under the direction of Syracuse University Project Advance (SUPA). After successful completion of these courses, students receive college credits, which may be transferred to many colleges and universities. Students pay a tuition fee to Syracuse University (for the past school year, 2007-08, it was \$110 per credit). Calculus 1 and 2 are each 4 college credit courses.

Advanced Placement

Advanced Placement courses follow the guidelines recommended by the College Board's Advanced Placement program (AP). Students enrolled in an AP course at Putnam Valley High School are required to take the Advanced Placement examination in May. Students pay a fee to take the AP examination (for the past school year, 2007-08, it was \$84). Depending on a student's score on the AP exam, he/she may receive college credit at the college or university she/he attends after high school graduation.

Dutchess Community College

The High School offers a few courses under the direction of Dutchess Community College. After successful completion of the course, students receive college credits which may be transferred to many colleges and universities.
