Peace Poster

By Michael Roman

Peace! PVMS wishes everyone peace! To help get this word out, Mr. Hallisey gave all the students at PVMS a chance to create a Peace Poster. For this contest, you had to make a poster about peace. You could not use words! Only a drawing. The contest ended December 5th. If you entered the Peace Poster Contest then thanks for your effort. 85 students participated in this event. The winning posters are mounted and hanging outside the front of the building. The 81 posters that did not win are hung throughout the building. Here are the winning posters.

7th grade.
Christina Policastro.

6th grade

MIDDLE SCHOOL

PULLS THROUGH FOR CAITLYN

By Matthew Scolaro

Caitlyn Bagnato is a high school student that was sadly diagnosed with liver cancer. We are, as a school community, trying to help her and her family through this difficult time.

We have had two fundraisers for her. The faculty and staff held a Dress Down For Caitlyn day on February 5. They raised an amazing \$902!!!!

On Friday, February 13, PVMS held a "Cookies For Caitlyn" bake sale And raised over \$400.00.

NO NAME-CALLING WEEK

By: Christina George

What is No Name-Calling Week? What's the big idea? Why do we celebrate it? Well, it all started when a novel called "The Misfits" came out. This novel is by James Howe. This book tells about five seventh graders that get bullied and create a cause called "No Name-Calling Day". After this novel came out over 40 national partner organizations created an actual "No Name Calling Week" that took place on March 1 through March 5 in 2004. This year "No Name Calling Week" took place January 26th through 30th.

Students in grades five through eight mostly take part in Name-Calling. Name-calling can cause low self-esteem. It goes on all the time. People may not know that they are hurting someone's feelings but it hurts all the same. Bullying is not only words. Bullying can turn into violence. When this happens you are not only getting mentally hurt but physically hurt as well.

When someone teases you, you could ignore it, but you may want to let that person know that they are hurting your feelings. Another way to avoid name-calling is to laugh along with the person who is making fun of you. This might tell the bully that what he or she is doing is not bothering you. After a while you should inform an adult. Once violence takes place you should definitely tell an adult. No Name-Calling Week is

here to help stop that. Mrs. Darreff said, "No Name-Calling Week" is a good reminder because sometimes we forget in our humor that we call people names and that it hurts."

As a part of a school community we should not call people names. Treat people the way you want to be treated.

No Name-Calling Week Activities:

Monday: "No Name-Calling Week Kick Off" Every grade will have a color, with that color comes a characteristic. Everyone will dress in his or her color.

Tuesday: "Give Back to your Community" Donate food to the Putnam Valley Food Pantry and earn one chance to win a prize. "Mix it Up" Talk to different people at lunch and recess to make new friends.

Wednesday: "Twins Day" Mimic the goodness in someone

else by dressing like him or her. "Trust Me" Assembly.

Thursday: "Superhero Day" Dress like a superhero and be brave. (No masks or face paint, all face paint done at home.)

Friday: "Peace Day" Dress from the 1960's.

Student Council

The Old Student Government Is The New..... Student Council

By Alexander Craven

Ah, The Student Council. A small society of kids with Big ideas to make this wonderful school even better with witty wits. The Council makes the school a better place by raising money for recess equipment, providing more privileges like going on the turf more often, bringing laptops home, (it's a battle the 5th and 6th graders are fighting for) and just making the school better overall.

These students were elected to the PVMS Student Council on September 29th, 2008.

- 5th Grade Congressmen, Alex Craven (Me!) and Justin Tompkins.
- 6th Grade Congressman/woman are Will Messenger (Re-elected) and Jackie Cunningham.
- 7th Grade Senators are Sarah Zadrina and James Fitzgerald
- The Vice President is Melissa Wagner.

This year there isn't a President, but there are 2 Co-Presidents.
They are Chris Brunke .

Mr. Hanna advises us as well.

I promise they (I) will help you a lot. We'll help you on almost every occasion.

Mr. Hanna has recently told us that most of the recess equipment we wanted to purchase, is on it's way! Except for the Wii Dance Revolution kit, WAY TOO much money at this time.

Alex Craven, Melissa Wagner, Jackie Cunningham, James Fitzgerald, Justin Tompkins, Will Messinger, Sara Zadrina.

Student of the Month

By Michael Roman

CELEBRATING OUR ACADEMIC ACCOMPLISHMENTS!

Student of the Month is Back. The following students are the students that are awarded with

Student of the Month for November, December and January.

NOVEMBER

Shamus Smyth	Jaydie Rivera	Divya Adukuzhiyil
Paige Montague	Quinn Kelly	Kyle Anderson
Nicole Fabiano	Alexandra DiRoma	Shane Ryan
Jake Kahn	Harrison Deegan	Cassandra Link
Grace Mazza	Olivia Weise	Steven Sperling
Michael Ruta	Lucas Greenwood	Justin Mazzarisi
Thomas Meslener	Margaret Frattarola	Lily Beatini
Gabriella Zarcone	Jenna Bennett	Alessia Zegarelli

DECEMBER

Meriton Djokic	Sydney DeToma	Devin Cronin
Vanessa Pereira	Jake Anderson	Tom Fejes
Jamie Sweeney	Ailish O'Reilly	Samantha Devine
Samuel Alper	Charles Pagani	Noah Kelvas
Lauren Crimmins	Joel Padilla	Dan Delgado

JANUARY

Jaydan Marshall	Gabriel Rodriguez	Kerri Seiler
Jessica Wagner	Nicole Raus	Vincent Torsiello
Ryan Messler	Katie O'Leary	Sabrina Dring
Stephen Hefner	Trevor Conlin	Steven Brown
Max Anderson	Rachel Merna	Jackie Pereira
Rachelle Perez	Alex Rodrigues	Jenna Bennet
Jake Reyes	Mathew Stare	Tara DePole

FUN IN CLASS

By Ethan Pedersen

The Invention Convention is a constructive project that has 6th graders doing three things: learning more about a certain civilization, learning about a simple invention and making improvements in your ELA skills.

The Invention Convention took place on December 22, 2008 in Mr. McCarty's and Mrs. Brother's 6th grade classroom. Some inventions were catapults, water wheels, grain shredders, elevators and tons more.

What you were supposed to do was write an eight-page packet, the first page as a cover, the second page stating the problem. The third page, and if you had it long enough, the fourth page an autobiography. The autobiography had to be about a fictional character the student made up that lived in an ancient civilization. The fifth page was the material page where you put all the materials for the life size invention. The sixth page is how to put your invention together. The seventh page is how to use your invention. The eighth page is a numbered explanation on how you came to make up that certain invention that you made.

After reading *The Mixed-up-Files of Mrs. Basil E. Frankweiler*, Mrs. Bowe's 5th grade ELA classes were able to find the hidden Michelangelo in each of them. All of the students created a sculpture just as Michelangelo may have done as a boy.

In the book, there is a mystery over a statue and whether Michelangelo sculpted the sculpture.

Soon to our Classrooms

Distance Learning

By Luke Liszewski

Have you ever wanted to have a class with people from around the country, or even the world? Well PVMS has recently received distance-learning equipment. This means that we can study with other kids that have this equipment too. This works like video conferencing, all you need is a projector, a microphone and a camera. We could take a virtual school trip to the Metropolitan Museum of Art, or to the Museum of Natural History using the equipment, which could not only save money on gas, but would probably have to cart into the museum service. We could also have other classroom somewhere around the world. (YES!!!!) with other kids anywhere! We have three distance-learning units in the school; so two classes could play Jeopardy while another class is having a conversation with a class in another school.

ment too. This works like video conferencing, all you need is a projector, a microphone and a camera. We could take a virtual school trip to the Metropolitan Museum of Art, or to the Museum of Natural History using the equipment, which could not only save money on gas, but would probably have to cart into the museum service. We could also have other classroom somewhere around the world. (YES!!!!) with other kids anywhere! We have three

Unbelievably, distance learning started in 1728, when Caleb Phillips was looking for students for his lessons that would be sent by mail weekly. The University of London was the first university to give distance-learning degrees. Charles Wedemeyer of the University of Wisconsin-Madison is considered by many to be the father of modern distance learning in America. The Carnegie Foundation funded Charles Wedemeyer's Articulated Instructional Media Project (AIM) from 1964 to 1968. It brought in a variety of communications technologies aimed at providing learning to an off-campus population. According to Moore's recounting, AIM impressed the British who imported these ideas and used them to start the first Open University now called United Kingdom Open University (UKOU) to distinguish it from other open universities that had emerged. UKOU was established in the late 1960s and used television and radio as its primary delivery methods, thus putting it in the forefront of applying emerging technologies to learning. It's fair to say that all "open universities" use distance-learning technologies as delivery methods. In the twentieth century, radio, television, and the Internet have all been used to advance distance learning. Computers and the Internet have made distance-learning distribution easier and faster. Phoenix University, which is primarily an online university, now has 200,000 students and expects to serve 500,000 by 2010. Little is known about student success or lack of success in such a fast-growing institution. Online education is rapidly increasing among universities in the United States, where online doctoral programs have even developed at prestigious research institutions.

Did You Know?

MARTIN LUTHER KING JR. DAY

By Matthew Scolaro

Who was Martin Luther King Jr. and why do people celebrate a day in his honor? It is the birth date of a special role model we know as Martin Luther King Jr.

MLK was born on January 15, 1929. He was a great part of our Civil Rights Movement, which also included Rosa Parks and Jackie Robinson.

MLK was a smart boy; he skipped grades in elementary and high school. He was chosen as a pastor in 1954. He led a successful effort to desegregate Montgomery, Alabama buses in 1955-1956. Dr. King delivered his "I Have A Dream" speech to civil rights marchers on August 28, 1963. On April 4th, 1968, John Wilkes Booth assassinated King in Memphis, Tennessee.

It took 15 years to name this day a national holiday. John Conyers made the holiday in 1983. A lot of states omitted the holiday at first; some said King didn't deserve the holiday. But "he taught us through his example the values of courage, truth, justice, compassion, dignity, humility and service that so radiantly defined King's character and empowered his leadership. So he was a great help to our society today." That is why we celebrate Martin Luther King Jr. Day.

Inauguration Day

A Little Obama Bio

By Matthew Scolaro and Alex Craven

The inauguration has come and gone!!!! On January 20th, 2009, Barack Obama, our 44th President, was sworn into office. In other words, he is going to start his work in the White House (hopefully to fix the economy). All who voted for Obama want serious change; to see the U.S. citizens live as one. Many citizens are looking to Obama for serious change. He has been sworn into office as our 1st African-American President.

He was born to a black and white couple on August 4th, 1961 in Honolulu, Hawaii. When he was in 5th grade, he was more conscious of racism. Obama had an early education in Jakarta, Indonesia. He was one of only three black kids in his school. He had nicknames like Barry, Bama, Rock, and The One. He put law school on hold and moved to Chicago.

Obama eventually received his law degree from Harvard in 1991, and he became the first African-American president of the Harvard Law Review. He was elected as a

Democrat to the U.S. Senate for Illinois in 2004, and served from January 3, 2005, to November 16, 2008, when he resigned from office, having been elected President of the United States on November 4, 2008.

More than one million people stormed into D.C. to see the inauguration. Aretha Franklin sang “Our Country ‘Tis of Thee”. The Supreme Court Justice swore Obama and Biden into office. They had cellists and violinists play a song called “Air and Sweet Gifts”. Our school went to see the recorded ceremony at 1:00 p.m. in the PAC. Obama’s speech, to some students, was thought to be moving.

Presidents Day

By: Dimitrios Tomais

President's Day is a day where we have a day off to celebrate the great presidents that were born in February for what they did. This took place on February 16th this year. President Abraham Lincoln's birthday is in the same month as George Washington's birthday. We celebrate the two of them on one day! Abraham Lincoln helped make a law by having no slaves. George Washington was our first president and he was great in the Revolutionary War. He helped America gain its independence. Also, something great about the two presidents is that they are both on Mt. Rushmore.

They are two of the greatest presidents in U.S history. George Washington's birthday is on the 22nd of February, and Abraham Lincoln's birthday is on the 12th of February

PARP Parents As Reading Partners

By: Bridget Cassidy

PARP is a national event that Putnam Valley Middle School participated in from January 26, 2009 through the end of February. PARP is a program that encourages kids to read with their parent/guardian at home. This year the book chosen for PARP was "The Westing Game", written by Ellen Raskin. PARP even has its own song that is called PARP Around the Clock. Here it is:

PARP Around The Clock (Refrain)

1-2-3 o'clock 4 o'clock PARP

5-6-7 o'clock 8 o'clock PARP

9-10-11 o'clock 12 o'clock PARP.

Either day or night, the time is right!

Verse 1

So grab a parent, grab a book.
Cuddle up and find a nook.

Refrain

We're gonna PARP around the clock tonight.
We're gonna PARP until our heart's delight.
We're gonna PARP PARP PARP around the clock to-
night.

Verse 2

Books take you places you've never been.
Open a book and jump right in.

Refrain

Verse 3

Any kind of book is fun.
Picture books, fiction or non-fiction.

Refrain

Verse 4

Learn a skill, solve a mystery.
Read a series, a biography or history.

Refrain

1-2-3 o'clock 4 o'clock PARP

5-6-7 o'clock 8 o'clock PARP

9-10-11 o'clock 12 o'clock PARP.

Either day or night,
THE TIME IS RIGHT TO READ

Putnam Valley Reads

TWILIGHT CRAZE

By Bridget Cassidy

The book that is a buzz through out the middle school is not just one book, it is a series of four books. That series is Twilight. The book titles are, Twilight, New Moon, Eclipse, and Breaking Dawn. Stephenie Meyer writes this series of books. She got the idea for writing these books from a dream that she had about a teenage girl and a beautiful, sparkling vampire having a conversation in a meadow in the woods. She noticed that they were having a few difficulties with each other; A) they were falling in love, and B) the vampire was particularly attracted to her by the smell of her blood, and was having a difficult time keeping himself under control around her. Stephenie wanted to write this down right away because she didn't want to forget it, so she typed it. She didn't know what to name the characters at first, so she just left them blank. Every day since then she wrote a page or two, but on good days she finished a chapter and sometimes even more. Eventually, she finished the book. Stephenie then named the two main characters Bella and Edward. This series got started in 2003. Ever since then people have fallen in love with the series and it became a hit.

Recently the book "Twilight" was made into a movie. The movie opened in theaters on November 21, 2008. It was a sensation!!! Movie theaters were crowded with people on the day it come out at midnight and days after that. The movie was directed by Catherine Hardwicke, who did a great job, because people loved "Twilight." It was a hit!! Kristen Stewart played the part of Isabella Swan, or Bella, and Robert Pattinson played the part of Edward Cullen. The second book in the series, "New Moon", is going to be made into a movie at the end of 2009, and then the other books after that will be made into movies as well.

I highly recommend the Twilight series because it is an interesting series that shows the life of a girl who meets a family of vampires. Also, it can be very catching because the books are full of beautiful language that is very descriptive. The story is about a girl named Bella Swan, who is from a divorced family. She moves in with her father to Forks, Washington from Phoenix, Arizona. There she meets a boy who is really a vampire and gets swept away by him. In this fantasy/fiction story love takes you away on a story of a life. Love is the biggest theme in this series.

POLL RESULTS

By Danielle Lopez

Here is what the polled looked like to all of our students using our eLearning application, StudyWiz

Vote **Poll**

!TWILIGHT! Take the Twilight Poll.

Question: Which Book are you currently reading in the Twilight Series?

ARTS AND ENTERTAINMENT

The 5th and 6th Grade Chorus Concert

By Danielle Lopez

Fabulous job! Stupendous! The 5th and 6th graders have did an amazing job in chorus this year on December 10th, of 2008. They sang the songs “Seasons of Love, Happy Holidays/White Christmas, On With the Snow, Jingle Bell Rock, and more. Astounding soloists Eve O’Brien and Denis McNamara sang “Seasons of Love.” But, of course who could forget our lovely teacher, Mrs. Craane, who is the one who taught us all these beautiful songs. They performed at the high school PAC, they did outstanding! Who know what they will do for the spring concert?

By Christina George

The 5th and 6th Grade Band Concert

The fifth and sixth grade band concert took place Tuesday December 16th at 7:00 p.m. in the High School Performing Arts Center. The fifth graders played three songs called Skaters Waltz, A Bit of Bach, Beethoven and Brahms and they also played Holiday. The sixth graders played Mystic Legend, Songs of Chanukah and Silver Lake Sleigh Ride. Mr. Beucke said, “From fifth grade to sixth grade there is a big jump in playing ability so the students can work on more challenging music.”

Zumbyes

By Christina George

The Zumbyes are an all boy Chorus, from Amherst College, Mass. They are an a cappella group. A cappella means to sing without instruments. The Zumbyes were formed fifty-six years ago by eight freshmen. There are currently fifteen members of the Zumbyes. They sang several songs, they danced and one of them was dressed up as a banana. P.V.M.S. saw the Zumbyes perform in January, 2009. The Zumbyes started in 1953 and will continue to perform for people for years to come.

School Happenings

Volleyball Game

Every year, on the day before Christmas Break (December 19th, 2008) there is a Volleyball game between a team of 8th graders and a team of PVMS faculty. I've seen... um... (2*y+x... carry the 4...). Oh! Three Student Vs. Faculty Volleyball games (four counting this one). Here are the winners of this year's Volleyball games.

Girls
8th grade- 29
Teachers- 31
Teachers win =|

Boys
8th grade- 34

Team 2 (Right from the bleachers, Left from the hallway)- 18
Team 2 wins =P

By: Luke Liszewski
**Student
Vs.
Faculty**

Basketball and Dodge ball

The basketball game was a blast!!! Students won!!! I hope you saw it. The final score was **42** Teachers and **43** Students!!! The total score is a combined score of the boys and girls games this year instead of separated. This was due to the fact that the game was shorter because of the addition of a dodge ball game. The game was very close, but we scored in the nick of time.

Teachers- 42
Students- 43

This is the first time the Middle School has hosted a dodge ball game. The dodge ball game (it was NOT a Medic game) was exciting. Congrats to whoever got Mr. Hallisey out. I'm surprised that he lasted so long. The school said that it would be a Medic game, but it turned out that a Medic game would last too long. So the faculty decided to have a dodge ball game instead. We won this game also. The faculty decided to pit the students against each other and face the winning team. Unfortunately, the team I was on (left from the bleachers, right from the hallway) lost.

See next page for photos

New for 2009

By Alex Craven

Happy Belated 2009! As you know, New Year, New things! There are a lot of new movies coming out, including Pixars Up. Me, I really LOVE Pixar! And there will be Monsters Vs. Aliens by DreamWorks, and Harry Potter: The Half-Blood Prince (I really like Harry Potter!). I think that these upcoming movies are going to be a box office smash!

There are also going to be the normal yearly things, Valentines Day, Easter Day, Independence Day, Halloween, Thanksgiving, Christmas, and of course, 2010! In our school, we will finish the grade we are in this year (woo!). For the 8th graders, good luck in high school!

In Video Game News, there will be Guitar Hero: Metallica (Which a lot of you love), Lego Universe (A creative game), and Sonic and the Black Knight (A new Sonic game!).

In books, there's going to be Scat by Carl Hiaasen, Inkdeath (the final installment in the Inkheart series), and The Twilight Saga: The Official Guide (A Twilight guide that girls go crazy for). This will be a great year for everyone, I can assure you that.

Poll Results

By: Christina George and Michael Roman

How about a four-day school week? That is what we wanted to find out. We decided to poll our classmates and teachers to find out their thoughts on the subject. We used our e-Application, Studywiz, to help us. Here is the poll as it appeared to the students and staff of PVMS.

The screenshot shows a poll interface with a blue header that says "Poll" and a "m VOTE" logo. The poll question is "Do you prefer 4 day school week or a 5 days?". Below the question, it lists the question, creator, date posted (01/13/2009 07:10), user, poll stats (with a "View Stats" link), and possible answers: "4 longer school days, hours would be 7:40 am - 4:35 p.m." and "5 school days, hours would be 7:40 a.m. - 2:35 p.m."

**We had 370 respondents!!!!
Here are the results:**

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27
28	29	30	31	32	33	34	35	36	37	38																

Unscramble each of the clue words. Copy the letters in the numbered cells to other cells with the same number to solve the puzzle.

Happy Inauguration!!!
