

We hope everyone had a safe, happy, and healthy Holiday season!

It's been a long offseason, but we are happy to announce that registration for the 2021 Spring season is now open!!

We plan on offering a full Spring season, however, we will be kicking it off a little later than normal due to a lack of indoor practice space.

We will also be implementing and enforcing COVID safety protocols, which will be announced as we get closer to the season's start.

We realize we're kicking off registration a little later this year (for obvious reasons), so we have decided to forego early bird pricing this year and instead have reduced rates across all divisions for the entire registration season.

We will also continue to offer a 15% sibling discount (15% off each additional sibling registered), please use discount code SIBLING for **each** **additionally** registered child.

As always we thank our sponsors and volunteers for their continued support!
