# **PROPOSED MIDDLE SCHOOL RECONSTRUCTION** 8

# DISTRICT WIDE IMPROVEMENTS

# How did we get here?

- Identified unique financial opportunity (Fall 2016)
- Reviewed 5-year capital plan
- Reviewed District-wide needs (September 2017)
- Convened a facilities planning committee (via an open invitation to all members of our community) (Fall 2017)
- Committee reviewed & prioritized District needs (October 2017-December 2017)
- Our District Treasurer and External Municipal Financial Advisor established a
  - budget that would NOT increase taxes. (\$14.8 million) Developed scope of project with District architects
- Presented proposed project at public events
- Board Resolution Approved (October 2018)
  - Vote December 4 (PVES 6 AM 9 PM)
- Construction timeline summer 2020-Fall 2021

# **Fast Facilities Financial Facts**

- 1. The Project will Not Increase Taxes The timing of this project takes advantage of a very unique opportunity and helps protect the district's long term financial stability by reinvesting our existing debt into this new project. The project will NOT result in any increase in taxes.
- 2. The Project Cannot Exceed Budgeted Amount Project costs cannot exceed the approved amount. Detailed budgeting, including possible escalation costs, was considered when developing the scope of the project. Under no circumstance can the project exceed the approved bond amount.
- 3. The Project will Help Stabilize Annual Tax Levy If our debt service drops, so does our tax levy limit. A reduction in our tax levy, which is already capped by New York State, could require the district to seek a supermajority vote in order to meet our contractual obligations and maintain staffing and programs.
- 4. State Aid Will Reduce Cost to Taxpayer The state education department will subsidize a portion of the project through state aid, we anticipate this aid to cover at least \$4,900,000 of the principal project costs and \$6,300,000 of the total project cost.
- 5. The Project Protects Programs and Saves Money If we don't address our infrastructure needs within the proposed facilities project, these items will need to be funded through our general operating budget, they will not be eligible for any state aid and will leave these projects competing with our instructional programs for a very limited amount of funding.

Retired Debt

New Yo State Building

## **MIDDLE SCHOOL**

#### Learning Commons

 Create a flexible modern libra collaborative study spaces

+

 Provide flexible learning space presentation areas

#### Social Commons/Cafeteria/

- Expand cafeteria and kitchen
- Increased cooking and service will increase options

#### **Building Infrastructure**

- Replace windows
- Install new entry canopy and
- Upgrade HVAC systems
- Develop outdoor spaces and landscaping
- Renovate bathrooms

#### Innovative Learning Spaces

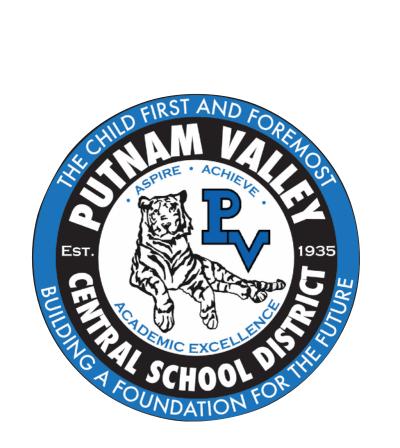

- Creation of flexible learning s
- New small group instructiona

#### Gymnasium

• Upgrades and improvements space

#### **Performing Arts**

- Increase audience capacity
- Creation of new soundproof
- New choral room
- Upgrades to stage area includ sound enhancements
